Durable Labels

With durable UV inks and a solid understanding of materials and adhesives, we can ensure that your label will withstand harsh environmental conditions. From petroleum products to spray cleaners and drum labels that meet the BS 5609 standard, we have Solutions That Stick!

We understand that durable labels need to last the life of the product. Durable labels provide key warnings (keeping people safe), instructions for use and repair of products, as well as provide traceability of products.

As an ISO 9001:2015 manufacturer, as well as a certified UL printer, we are well suited to help you in any durable application.

Pantone 2020 Color of the Year

Pantone has announced its 2020 Color of the Year: Classic Blue (Pantone 19-4502). This elegant, straightforward and restful color denotes tranquility and stability, and is relatable across many demographics as a universal favorite.

Leatrice Eiseman, Executive Director of the Pantone Color Institute, had this to say about the color, "We are living in a time that requires trust and faith. It is this kind of constancy and confidence that is expressed by PANTONE 19-4052 Classic Blue, a solid and dependable blue hue we can always rely on."

Already used by many popular brands, including Ford and Pepsi, expect to see Classic Blue used as an overall or accent color on many products, labels and packaging in the near future.

Every year, for over 20 years, Pantone's experts analyze color trends and influences from around the world in order to determine the color for the coming year. Their selection inspires product development and purchasing decisions across many industries, including fashion, industrial design, home furnishings, graphic design and product packaging.
