Film Membership Cards

McCourt Label offers membership cards, made from polyester film, that are specially designed for affixing onto letters, forms and product packaging. Here are some details and benefits of film cards:

- Cards include film material laminated to our special multi-ply film construction coupon base.
- This base is designed to be easily lifted up from any edge, leaving no residue behind.
- We offer matte and gloss laser varnish for the facestock.
- These 7.5 mil cards are more tear-resistant than the paper tag stock that is typically used for this application.
- Cards are available in wind directions 1, 2, 3 and 4
- Cards can be printed with a union bug on them.
- The end product is a highly-printable card and McCourt can print on both sides.
- Applications include: coupons, rebates, fundraisers, membership/loyalty programs, subscriptions, insurance, gaming and more

McCourt Has Your Ideal Laser Sheet Configuration!

McCourt's laser sheet experts can help you find the ideal labels for your application. With our wide variety of configurations, adhesives, and facestocks, we can help you in creating the optimal combination. Benefits of our laser sheets include:
