## August 2020 Issue

### McCourt History

*Did you know that our corporate name is actually McCourt Label Cabinet Company and originated in 1896?*

McCourt Label had its start as a manufacturer of label dispensing cabinets for drug stores invented by Newton W. McCourt. McCourt produced not only the wooden cabinets, but also the labels themselves used by pharmacists; gummed and rolled into compact cylinders. The drawers in the cabinets were a clean and neat method of keeping the labels readily available and clearly marked.

An original McCourt Pharmacy Label Cabinet

The picture attached is little piece of history recently purchased from a gentleman in Conneautville, PA . The gentleman had previously owned 2 pharmacies and this little gem had been sitting in a storage unit. This was 1 of 11 stock sizes that we produced and finished in golden oak or mahogany. The golden oak cabinets were made of quarter-sawed white oak, while the mahogany finished cabinets were made from birch. These cabinets could also be custom made to match a customer's other fixtures when a sample wood piece was submitted for color match.

### McCourt Rewards Employees for Safety

McCourt Label prides itself on maintaining a safe workplace for all of our employees. Monthly our safety committee meets and has various inspections throughout the plant and office areas looking specifically for anything that can be a safety hazard. Many preventive actions and continuous improvements are generated from this team.

As a reward, when we have 365 straight days without a lost time accident, the company closes for an extra day each year, generally surrounding a holiday such as Christmas or New Years.

This year we will be granting our employees a long Labor Day Holiday weekend. Our office will be closed on Friday, September 4th in addition to Monday, September 7th.

## Social Distancing Decals- Available Stocked in 10 packs

McCourt Label offers a full portfolio of visual safety products to support social distancing policies, hygiene protocols, and PPE requirements.

Our floor and wall decals are very durable and have an adhesive that will withstand the wear and tear of foot traffic, but will also remove cleanly when it is time to replace them. Our seat and table decals also feature an adhesive that will stay put, but will come off cleanly when your customers are ready to replace it or remove it.

Don't see the label, sign or marking you need? We specialize in working with you to meet your requirements - from custom messages to solving application challenges. To start your project please contact us.
