Year-End Review: Thanks For Sticking With McCourt!

As 2022 ends, we would like to thank all our valued customers for sticking with us this year. We know how difficult it has been dealing with the never-ending price increases, extended lead times, and supply shortages. We are hopeful that things are finally starting to stabilize coming into the New Year. Demand for labeling products remains high, but most allocations have been lifted and many stocked products are back to more normal lead times of 1-2 weeks.

Please consult with your account manager for specific lead-times on products you require. If you run into a situation where you need labels right away, we will do our best as always to help. We still recommend looking out 3-4 months for what your label requirements will be and place your orders accordingly.

Here at McCourt, we are always investing back into our business to provide you with the best labeling solutions. Earlier this year we installed new digital finishing equipment. This gives us added capacity and helps to improve lead times for digitally printed jobs. We installed a new roll rewinder that is faster and more efficient and have another new winder on order with a state-of-the-art camera inspection system. We are constantly adding to our converting equipment and expanding our capabilities to better serve our customers.

While the road ahead may be paved with more challenges, we are committed to doing everything we can to meet your label needs. We recently celebrated our 125th Anniversary and we have weathered many storms over this past century and a quarter, and we will continue to strive to be the best solutions provider for our customers. We are extremely grateful for the trust you place in us to be your label experts and we wish you all a joyous holiday season with your loved ones and a prosperous New Year.
